At Derbyshire Community Transport we believe that no one, regardless of age, ability/disability, financial status or domestic location should be prevented from enjoying a full life because of lack of access to transport.

To do this we run services aimed at getting people out and about. We are focussed and passionate about ensuring everyone has access to transport that suits their individual needs.

Our caring team is made up of employed and volunteer drivers and passenger assistants, plus a small admin team. All drivers are MiDAS trained and staff are cleared to Enhanced DBS status.

Our ambition is to be at the heart of the community we serve and to act as the means by which local people are able to participate fully in their local communities. We also believe that our transport offers a vital element in combatting loneliness, hence we aim to:

- a) Offer a service that the community can depend on
 - b) Support users in overcoming transport barriers

Over the summer 2021 Derbyshire Community Transport undertook a study into transport for those with disabilities and mobility issues in Belper. The study was part funded by the previous SLA agreement with Belper Town Council and has previously been shared with the council. We have also been contacted by the Hospital regarding transport as EMAS is now only taking people non-emergency patient transport for those with medical needs.

15. What benefits, skills and knowledge will participants gain from the project?

The users of the service will benefit from affordable and caring access to health and other appointments, which will previously have been difficult or very expensive to attend.
