

Proposal to Belper Town Council

Objective: To enhance the excellent Christmas Decorations around the town by the addition of a Nativity Scene in the Memorial Gardens. This would be sourced locally and could draw, for example, on the extensive base of expertise amongst the craft community in Belper.

Churches Together in Belper endorsed this proposal at their September meeting and it will be provided on a “no cost to the Town Council” basis.

It will use the “stable” that was used for the purpose a few years ago, but which has in more recent years housed an illuminated reindeer etc, since the original nativity figures became unserviceably scruffy.

It will:

- require an electrical supply for illumination
- include figures of Mary, Joseph, the Christ child in a manger, a shepherd and a sheep
- be as tamper-proof as possible, including perhaps a Perspex screen across the front of the whole assembly

Thank you,
