

Full Council–14<sup>th</sup> July 2020  
Belper Community Speedwatch

Proposal - to purchase a replacement speed device for the speedwatch team.

The device we currently use has limited range and reaction, which presents a difficulty when attempting to record the registration number, make and colour of the car. Once the device records the speed of the car there is little time to focus on these necessary details before it has passed, so the range of the device is key.

Last time we were out as a team, 3 of the speeding cars were recorded incorrectly because of this and the Police were not able to identify and take action.

The Police Speedwatch Co-ordinator recommends the Bushnell Radar Gun which is supplied by Laser Tech UK Ltd, the police preferred supplier at £229 plus VAT.

There are regular requests for sessions from the community, I am keeping a log of these and will formulate a plan for delivery once we get the go ahead from the Police Co-ordinator to recommence.
