Two members of staff from Vaillant attended the meeting to inform the Committee about the merits of renewable heat sources. Renewable solutions such as air source heat pumps are one of the most economical and eco-friendly heating solutions on the market and help homeowners not only to reduce their carbon footprint, but to significantly reduce their heating bills. The Planning Committee is passionate about promoting Sustainable Energy in line with the Council's Neighbourhood Plan and welcomes the information provided from Vaillant, as this will help when encouraging more eco-friendly options on development and planning applications.

Blu 7 Ltd, The 1924, Campbell Street, Belper Derbyshire DE56 1AP.**
- The Planning Committee note their support of new development, employment and tourism opportunities within the Town, but suggest

contact should be made with neighbours regarding business delivery times and potential access issues on Campbell Street.

AVA/2021/0841 – Change of use of former nightclub to 9no. retail units and 1no. café. Provision of new ancillary storage and meeting room to the first floor. Change of use of existing storage space into offices (this may affect the setting of the Conservation Area). The Corn Exchange, Unit 1, 8 King Street, Belper, Derbyshire, DE56 1PS.
