|--|
| Agenda Item; Flooding Report Submitted by; Cllr Emma Monkman (Lead Flood Warden, BFWS). |
| 1. Approval; Recommendation for Approval/ Noting etc. Noting |
| 2. Purpose of the Report To update the committee of recent (and ongoing) developments. |
| 3. Background Information Our corporate plan mentions a <i>Community Flood Plan</i> . Over the last 3 years I have been requesting assistance from the Environment Agency and Derbyshire County Council in preparing this document. As no assistance was forthcoming, I investigated other options including a Flood Risk Assessment for the Town. DCC has now recruited to fill vacancies and I revisited my initial request, a meeting has been scheduled for Friday 13 th of January 2023, to discuss this further. I will verbally update the committee members fully at the meeting on the 17 th . In addition, I was tasked with developing a process/ policy for members of the public accessing the Flood Emergency Response Fund (8015 on the Budget) by the Finance, Governance and Staff Committee on the 3 rd of January. I have since met with our Town Clerk and this will be brought back to the F,G & S Committee in February. |
| 4. Legislation N/A |
| 5. Accessibility Implications N/A |
| 6. Climate Emergency Implications Flooding is a symptom of Climate Change. Our work is in response to the changing climate. |
| 7. Corporate Plan Implications The Community Flood Plan is a key part of the Corporate Plan. |
