

Agenda Item 8(b) – St John’s Barrier Removal Committee information only
Information Only Committee information only
Purpose of the Report To provide the Committee information regarding the car park barrier at St John’s car park.
Background Information The barrier was removed on 5 October 2020. It was taken back to Newgate’s premises for the condition of the barrier to be assessed so that the Company could give the Council a price to buy it back. A couple of hours later an email was received to say that they would not want to buy it back and should they dispose of it. A letter of complaint has been sent to Newgate regarding this matter and the Council is still awaiting a response
